

7<sup>th</sup> of April 2021

Dear Director Reginaldo Filho

I am writing on behalf of the ETCMA (European Traditional Chinese Medicine Association) in support of the X Brazilian Congress of Chinese Medicine hosted by Faculdade EBRAMEC - Brazilian College of Chinese Medicine, that will take place during the week from 24<sup>th</sup> to 30<sup>th</sup> of May 30th 2021.

EBRAMEC and the ETCMA have a Memorandum of Understanding since 2019. For us, it is important to support the wonderful work of EBRAMEC and the person of General Director: *Reginaldo de Carvalho Silva Filho*, in promoting and raising the standards of Chinese Medicine in Brazil.

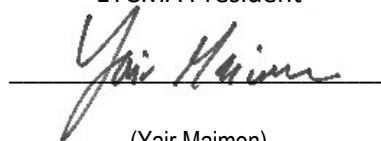

This year is also an important milestone in the history of EBRAMEC's 20 years of history. We know that achievement and success aren't by accident. Breakthroughs come after spending what seem like hours of hard work and trying new ideas and pushing further and stronger every day to achieve the credibility that make you one of the references of Chinese Medicine in Brazil. ETCMA wish EBRAMEC many more years of unparalleled success and the continuation of the great work in promoting Chinese Medicine.

We sincerely hope that the **X Brazilian Congress of Chinese Medicine** (第十届巴西中医大) and the **1st International Congress of Faculdade EBRAMEC** (第一届巴西中医学院国际大会), will be an instant success. It will be a memorable learning experience for all the speakers, practitioners, and researchers from ten countries and with more than 80 presentations allowing the community of practitioners to connect, exchange ideas, and make meaningful personal development at their fingertips.

We wish a wonderful congress to all the attendees.

Yours Faithfully

ETCMA President

(Yair Maimon)
