

**Letter of Support and Congratulations from the European Foundation
of Traditional Complementary and Integrative Medicine to XII
Brazilian Congress of Chinese Medicine & III International Congress
of Faculdade EBRAMEC**

Dear Dr. Reginaldo Filho,

On behalf of the European Foundation of Traditional Complementary and Integrative Medicine (FEMTCI), I would like to extend my warmest congratulations on the XII Brazilian Congress of Chinese Medicine and the III International Congress of the Faculdade EBRAMEC, which will be held in São Paulo, Brazil, from 22 to 28 May.

It is an honor to see how the Faculdade EBRAMEC has been able to bring together experts and professionals from more than 20 countries and to count on the participation of more than 80 national and international lectures. This demonstrates the great scope of Chinese medicine and the magnitude of this congress, as well as the dedication and hard work of the organization to make it possible.

I am convinced that this event will be an important milestone for the promotion of Chinese medicine in Brazil and worldwide, and also for the promotion of people's health and well-being.

For all this and for all the future implications of this event for the progress of Chinese medicine, the FEMTCI once again congratulates you on the achievement and strongly supports you in your future endeavors.

We wish you all the best of luck and success at the congress!

Dr. Ramón Mª Calduch
President of FEMTCI
